

An aerial photograph of the London skyline at sunset. The sky is a mix of orange, yellow, and grey. The River Thames is visible in the foreground, reflecting the light. The city is densely packed with buildings, with several prominent skyscrapers in the center. The sun is low on the horizon, creating a warm glow over the city.

DrayTek

Empowering Business Communications

Draytek are a leading provider of state-of-the-art networking and communication solutions tailored for various business verticals. Draytek offers a diverse range of products designed to enhance productivity, security, and efficiency in different industries. Discover how Draytek's cutting-edge solutions can cater to the specific needs of your customers business verticals.

Why Choose Draytek?

Reliability

Draytek products are renowned for their reliability and consistent performance, ensuring uninterrupted connectivity for your customers.

Security

DrayTek solutions incorporate advanced security features to protect networks and valuable data from cyber threats.

Customisation

Draytek's products are highly customisable, allowing you to tailor the network to your customer's specific business requirements.

Scalability

Whether you cater to small business or a large enterprise, Draytek's solutions grow with businesses, adapting to changing needs.

Expert Support

DrayTek offer comprehensive technical support and guidance to ensure you make the most of their products and services.

Transform your customer's business operations with Draytek's innovative networking and communication solutions.

Contact our experts today to find the perfect fit for your target verticals.

Hospitality and Tourism

In the highly competitive hospitality industry, customer experience is paramount. Draytek's products ensure seamless connectivity and personalised services for guests. With the VigorAP960C Access Points, you can create multiple wireless networks, segregating guest and staff traffic for better security.

The Vigor2866AX-K Router provides high-speed internet access, VPN support for secure remote management, and dual-WAN failover for uninterrupted services.

VigorACS 3 – Network Management System

VigorACS 3 is the latest version of DrayTek's Network Management System (NMS). It supports all current DrayTek routers, access points, and switches, providing an integrated platform for configuration, monitoring and management.

VigorACS 3 is also the core of the DrayTek SD-WAN solution. It's the central software where Network Administrators can perform configuration, provisioning, and monitoring to the edge routers.

Provisioning

Allow new devices to set themselves up and download the latest firmware.

Monitoring

Get notified when a device lost its WAN, VPN, or connection with the ACS server.

Statistics

Network insights about device, client, and traffic over a specified period.

VPN Wizard

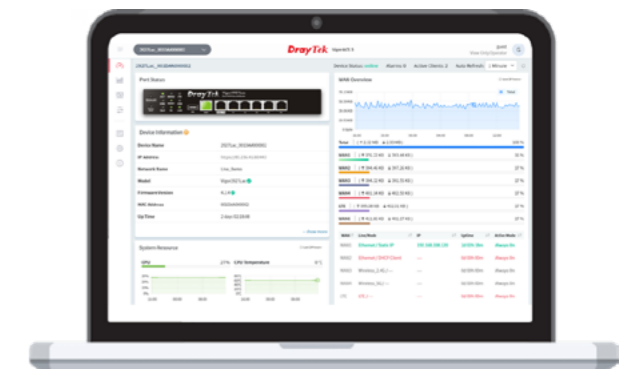

Create an IPsec, L2TP, or SSL VPN between managed devices within a few clicks.

Maintenance

Schedule an off-hour firmware update, configuration change, or device restart

Report

Generate network-based report about traffic, firmware version, device status and more.
