Nimans Connect Mobile

Everything you need to grow your mobile business.

Whether you're already selling mobile or looking to expand your connectivity portfolio, our refreshed wholesale mobile proposition gives you everything you need to win more business and manage customer connections with confidence.

Nimans Connect Mobile highlights

We've created a proposition designed to help partners grow:

- Access to three UK mobile networks*
- True wholesale model
- Self-serve partner portal
- Contract length flexibility including true 30 day
- Voice and data SIMs with individual or shared options as well as mobile broadband and M2M / IoT available
- Regularly updated commercial packs by network
- Support for roaming, out of bundle and usage alerts
- eSIM availability
- Marketing and white label support
- Regular offers and incentives

Our proposition is built for the channel

- Competitive wholesale pricing
- Flexible commercials
- Sell under your own brand
- Build recurring revenue
- Ideal for existing mobile specialists and resellers adding mobile for the first time
- Powerful self-service portal – manage your mobile estate from one easy-to-use platform
- ConnectPro Billing – our white label, bureau billing solution for resellers not wanting to or those who do not have the resources to invoice end users. This remains as a wholesale relationship

*Contact us about 3 tariffs as we can provide where required

Self-serve Portal

Resellers want to have control of their customer estates from initial ordering through to the required adds, moves and changes and our provisioning portal gives resellers that access:

- Activate and provision SIMs
- Bar and unbar SIMs individually or in bulk
- View SIM status in real time
- Manage tariffs and bundles
- Set spend caps and usage alerts
- Monitor data, voice and SMS usage across customer estates

M2M & IoT

Reliable cellular connectivity for the devices that power your customers' businesses from CCTV and digital signage to asset tracking, remote monitoring, and industrial equipment.

Our multi-network SIMs automatically connect to the strongest of all four UK mobile networks, so devices stay online wherever they are. Backed by partnerships with multiple operators and built for global scale, we handle the complexity of IoT and M2M connectivity, so you don't have to.

Whether you're deploying ten devices or ten thousand, you get the flexibility to match connectivity to your customer's exact needs — with pooled data plans, private APNs, VPN and IPSec/L2TP support, eSIM options, and full global roaming capability. All managed through a single platform, built for security and scale.

Six Reasons to Buy Mobile from Nimans

1. Channel-only, wholesale distributor
2. Comprehensive product portfolio
3. Experienced support team
4. Flexible and scalable billing
5. One-stop shop for connectivity and hardware
6. Comprehensive Self-Service Portal
